DETAILED ACTION

Drawings

1. Figure 6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled 'Replacement Sheet' in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: Flip Chip Ball Grid Array Package.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: Claims 1-18 are allowed because the prior art of record neither anticipated nor rendered obvious all the limitation of the base claims 1, 5, 8, and 12 including a capacitor-mounted board formed of an organic substrate ceramic substrate, in which through-hole wires are

formed in the capacitor-mounted board, the through-hole wires electrically connect an upper surface to a back surface of the capacitor-mounted board, capacitors are mounted on the board in a manner that electrodes of capacitor-mounted the capacitors are connected to printed wires connected to the through-hole wires, pads connected to the through-hole wires are formed on a back surface and connected to the through-hole wires, and the capacitor-mounted board is flip chip connected to the semiconductor chip in a manner that the pads on the capacitor-mounted board are provided opposite to bumps on the back surface of the semiconductor chip, and an adhesive resin filled between the semiconductor chip and the package substrate and between the semiconductor chip and the capacitor-mounting board, the adhesive resin adhering the semiconductor chip to the package substrate and the semiconductor chip to the capacitor-mounting board.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
